Competitionbook software

- Software is made to make the management of the competitions as easy as possible;
- It is easy to use, time and cost effective;
- Everything you need is included;
- Support is available.
- No need to use multiple programs for competition management

You will have all the information needed to run a successful event in one software

You need less staff to run the event - it saves your time and money

With Competitionbook You can:

- **Create Your national and international competitions;**
- **Manage online registration to Your competitions.**

You will have all the necessary information about federations, teams, athletes and other participants inserted with necessary comments by themselves during registration process;

Information that You have is inserted for You, it is correct, it is changeable if needed and You have a correct overview without entering data Yourself by hand.

You do not need to make multiple excel tables.

Information is exportable to excel or pdf if you need it.
